TECHNICAL SKILLS

EXPERIENCE

Angular Developer

Techno Genesis Software Solutions Pvt Ltd

Oct 2021- Present

Madurai, Tamil Nadu

Roles and Responsibilities

- Developed and maintained software applications to ensure optimal performance.
- Investigated, analyzed, and resolved application-related issues in a timely manner.
- Created detailed technical documentation for all developed software programs.
- Collaborated with product managers, designers, and other stakeholders to define feature specifications.
- Integrated third-party APIs into existing applications to extend their functionality.
- Conducted user acceptance testing on new features before releasing them live.
- Maintained version control systems for tracking changes in source codes over time.
- Managed bug tracking systems for reporting, tracking, and resolving defects in software products.
- Worked extensively in Agile development processes.
- Published apps in the Google Play Store and Apple Store.

PROJECTS

Buywoods.in

Technology Used:

- **Frontend:** Angular 9, RxJS, HTML5, CSS3, TypeScript
- **Payment Gateway:** Paytm Integration
- **Push Notifications:** Firebase Cloud Messaging (FCM)
- **Tools:** Git, Postman, Angular CLI

Description:

- Developed a **Website and CRM** for a wood retailer using **Angular 9**.
- Integrated **Paytm** for payments and **Firebase** for push notifications.
- Built an **Admin Panel** for managing stock, employees, and campaigns.
- Developed **Reports** and **Catalogue Modules** with dynamic filtering and real-time updates.
- Users can select services, upload photos, apply filters, and choose payment options (**Online or COD**) with **Paytm** integration.

- Implemented **custom calculations** for pricing and reusable **Angular components**.
- Collaborated with backend for API integration and responsive design.

NRI Infotech

Technology Used:

- **Frontend:** Angular 9, RxJS, HTML5, CSS3, TypeScript
- **Payment Gateway:** Razorpay Integration
- **Tools:** Git, Postman, Angular CLI

Description:

- Developed an **online platform** for wholesale computer accessories to manage orders and operations.
- Built an **Admin Panel** with features for order tracking, catalog management, and order reporting.
- Implemented dynamic filtering and real-time updates for order and catalog management.
- Collaborated with backend for API integration and ensured responsive design.
- Website: <https://www.nrinfotechworld.com/>

Puppys Bakery

Technology Used:

- **Frontend:** Angular 12, RxJS, HTML5, CSS3, TypeScript
- **Payment Gateway:** Razorpay Integration
- **Shipping Integration:** Shiprocket
- **Tools:** Git, Postman, Angular CLI, Swagger

Description:

- Developed an **e-commerce website** for a popular bakery using **Angular 12**.
- Integrated **Razorpay** for payments and **Shiprocket** for shipping management.
- Built an **Admin Panel** with features like CSV import for catalog management, dashboards, and order tracking.
- Ensured a responsive design for seamless **mobile and desktop views**.
- Implemented **Swagger** for API documentation and testing.
- Website: <https://puppysbakery.com/>

Print App

Technology Used:

- **Frontend:** Angular 12, RxJS, TypeScript, HTML5, CSS3, jQuery (CDN for custom components)
- **Backend:** Firebase (Authentication, Firestore Database, Cloud Functions), WebSockets (Real-time communication)
- **Payment Gateway:** Paytm Integration
- **Notifications:** Firebase Push Notifications
- **Features:** Social Share, Filtering, Social Sign-in (Google, Facebook)
- **Chat:** WebSocket-based real-time chat with text, audio, image, and video support
- **Admin Panel:** Order tracking, Catalog Management, Reporting, Kanban Board
- **Tools:** Git, Postman, Angular CLI

Description:

- Developed a **website** for photography-related products such as passport photos, photo prints, and custom photo frames.

- Integrated **WebSocket-based real-time chat** supporting **text, audio, images, and videos** for seamless customer and employee communication.
- Implemented **Firebase push notifications** for order updates and promotional messages.
- Added **social sign-in** (Google, Facebook) and **social sharing** features.
- Built an **Admin Panel** with **Kanban Board** for efficient order management, tracking, and reporting.
- Used **jQuery CDN** for creating custom components, including an **image carousel**.

MIS Legal Management

Technology Used:

- **Frontend:** Angular 14, TypeScript, RxJS, Angular Material
- **Backend & API Documentation:** Swagger
- **Features:** Dynamic Forms, Custom Reusable Components, Custom Pipes, Reactive Form Handling
- **Tools:** Git, Postman, Angular CLI

Description:

- Developed a **legal-based Admin Panel** for managing highly secured data.
- Implemented **dynamic forms** with **custom reusable components** and **validators** tailored to client-specific requirements.
- Utilized **Angular Material** for a modern UI experience with optimized usability.
- Integrated **Swagger** for API documentation and seamless backend communication.
- Implemented **custom pipes** for data transformation and efficient UI updates.
- Developed using **Reactive Form Handling** to enhance validation, user experience, and data management.

Accupayd Payout

Technology Used:

- **Frontend:** Angular 15, TypeScript, RxJS
- **Domain:** Fintech
- **Third-Party Integration:** Cashfree (Money Transfer)
- **Features:** Multiple Forms Handling, High Security Standards (Encryption for Sensitive Information)
- **Tools:** Git, Postman, Angular CLI

Description:

- Developed a **website** for users to send payments seamlessly, including rent payments to landlords.
- Implemented **Cashfree** payment gateway for secure and efficient money transfers.
- Rental users can send payments to the recipient (Landlord), while the **commission amount** is received by the admin.
- Ensured high security standards, including **encryption** for sensitive user information.
- Designed and managed **multiple forms** with proper validation and user-friendly interfaces.
